RUSSIA'S BIG LOAN PLANNED

London, May 9.—Baron Hayashi, the Japanese minister here, looks for the next engagement of the war to take place at Lioa Yang. St. Petersburg, May 9.—In military circles the belief is prevalent that Port Arthur will be able to resist an attack six months, if necessary.

MORE DETAILS OF RECENT BATTLE.

St. Petersburg, May 9.—The emperor has received a dispatch giving the report of Lieut. Gen. Zaslavskii, of the Russian losses in the battle of Kiuilen Cheng. Maj. Gen. Kashchinsky was injured in the head by a stone. The brunt of the fighting was borne by the Eleventh and Twelfth rifle regiments and the Twenty-second regiment. Russian regiments were obliged to make several counter attacks and at a way for themselves with the bayonet against the enemy, who were five times stronger than the Russians and supported by artillery.

In this terrible fight the losses in killed were four officers, including the commander of the Eleventh and 481 non-commissioned officers and men. The wounded were one officer and 801 non-commissioned officers and men and a chaplain, while 700 others were left on the field.

"Our losses on April 30 and May 1, altogether, amounted to seventy superior and subaltern officers and 32,424 men killed, wounded or taken prisoners. Of this total 1,071 were left on the battlefield, but it is not known whether they were killed or wounded.

"In consequence of the heavy losses in men and battery horses and the difficulties encountered in the roadless country it was absolutely impossible to bring away the guns and machine guns," says Gen. Zaslavskii.

Harold Semoin, aged five weeks, died this morning at 605 South Third Street. The burial took place this afternoon at Oak Grove.

NEW MAN PLACED IN CHARGE TODAY

Mr. J. H. Harrison, an Expert, Running the Roller.

All City Teams Now Have Taken on Them—Board of Police Commissioners Meets Tonight.

TWO EXTRAS TO BE NAMED

A called meeting of the board of public works was held at the city hall at 10 o'clock this morning and Mr. J. H. Harrison, of Daleville, Ind., was formally placed in charge of the street roller, and will run it during the summer. Mr. Harrison arrived last night, being sent here by the factory, the Kelly Road company, of Springfield, O., and comes highly recommended. The board of public works several days ago wrote to the factory for an expert man to run the roller, and Mr. Harrison was sent. He was given charge of the roller this morning, and expects to make a good showing in street building and repairing in Paducah.

The board today ordered the street roller shall work on, and how much material shall be purchased when ordered by Mr. Harrison. Full power is given Mr. Harrison to employ all hands, teams, graders and sprinklers, necessary to carry on the work with the roller and to make requisition for necessary material.

The board of public works will Wednesday adopt a rule that hereafter the harness of every team owned or employed by the city, have attached to it a large leather tag bearing the letters in metal, "City, S. D. No. —"

These leather tags are all numbered and enable the board to keep track of every team and prevent its being used for outside work when supposed to be in use for the city. The tags were delivered today ready for use.

POLICE BOARD MEETS.

The board of fire and police commissioners will meet in regular session tonight and will appoint two extra policemen to succeed Extra Officers Hill and Markey.

Officer Hill was recently promoted from first extra to regular policeman and Officer Jim Clark was put in Hill's place. Hill was again transferred to Officer Ed Clark's position as regular officer when the latter took the license inspector office, and extra Jim Clark was shifted into Officer Hill's place. This leaves the offices of first and second extras vacant and the vacancies will be filled tonight at the meeting, it is said. Mr. Gus Rogers who is acting as extra, is tipped for first extra. It is stated that the commissioners will also urge that the ordinances for the increase to the fire department be prepared at once, so no delays be occasioned after the two new departments have been completed.

He will be joined in Louisville by Mr. O. B. Van Horn, religious and educational secretary of the Kentucky Y. M. C. A., who was recently in this city, and other members of the Kentucky state committee.

The meeting will be one of unusual interest, and will have on its program, speakers of international reputation, and leading authorities in a literary and religious way. Among these will be [Robert E. Speer, author of the famous book, "The Man, Christ Jesus."

The fifteenth annual convention of the Christian Endeavor Society of Kentucky was held with delegates in attendance from nearly every county in the state. The convention decided to hold biennial meetings hereafter in order that it might alternate with the international convention which meets next year in Baltimore.

Miss Kathleen Whitefield, of Paducah, was made assistant State Secretary of prison work.

The members of the Gideon band occupied the pulpits of most of the churches of the city yesterday morning and evening. Superintendent Charles H. Palmer, spoke to a large audience at the First Baptist church Sunday morning and to a union service at the First Presbyterian church Sunday evening after, a brief meeting at the other churches.

TWO SAILOR BOYS CAUGHT IN BOX CAR

Believed They Deserted the Training Ship Yankee.

Say They Were Going South—Hopkinsville Asylum Has Room Now.

WHAT BOARDING HOUSE IS

Will B. Smith and Fred A. Heath, two sailors claiming to be off the U. S. training ship Yankee, were arrested in the local I. C. yards this morning by Special Officer Tom Murray for riding in a box car.

The sailors claim they came from Philadelphia and were en route south. They were arraigned before Police Judge Sanders this morning and fined \$5 and costs for disorderly conduct in trespassing in the railroad's cars and will be held pending investigation.

This morning Chief of Police James Collins telegraphed to Washington to ascertain if the men are wanted there for deserting, the local authorities suspecting that they are.

They talk little and the police have been unable to get anything definite out of them.

This morning Mr. James Crow, committee for Lucy Carson, the negro inmate who is being kept in jail here because she can not be admitted to the Hopkinsville asylum on account of its crowded condition, secured an order from the county for clothes for the girl. She tore all her wearing apparel off, in her violent spells and it is a hard matter to keep a dress on her.

Mr. Crow received a long distance telephone message this morning that the girl could be brought there today, but the authorities would prefer that he wait until tomorrow and he decided to take her tomorrow.

Parish Jones and wife, who make Paducah their headquarters but roam about in this section considerably, were arrested in an I. C. box car Saturday night, by Officers Cross and Orr. The woman is the first ever arrested here for being in a box car and the couple gave the excuse that they had no other place to sleep. They were released by Judge Sanders.

Messrs. B. B. Linn and Will Utterback, at Fifth and Madison streets, saw a negro attempt to snatch a purse belonging to one of two ladies who were passing along Saturday evening, and gave chase, but he escaped. It is supposed to be the same thief who has snatched several purses from ladies on Saturday night recently.

Chief of Police James Collins and License Inspector Ed Clark have gotten the dogs pretty well in hand, and will this week devote considerable time to rounding up the private boarding house keepers. Everyone who takes two or more boarders is liable for the license.

AUDITOR'S AGENT COLLECTING TAXES

People Through the Court House to Pay Taxes.

Mr. George H. Alexander, of Louisville, Collecting Money Rapidly—Question About the Deeds.

LIVELY LITIGATION POSSIBLE

Mr. George H. Alexander, of Louisville, one of the state auditor's agents, is in the city and this morning began collecting back taxes on property for the state, and all property which is not thus redeemed will be sold and an auditor's deed given the purchaser. This is the first time a sale of this kind has been held here since 1892, and it has aroused considerable interest. The agent is working in County Judge R. T. Lightfoot's court room, which was packed all the morning with both white and colored people anxious to pay the back state tax and avoid the sale of their property.

So fast did the delinquent taxes come in that the agent worked incessantly from early in the morning until noon, when he adjourned until this afternoon. He will collect taxes until the property owners quit coming in, and will then sell all property not redeemed.

A great many people do not understand the nature of the sale. It is simply that of property the title to which has become vested in the state through failure of the owner to redeem. All property is sold by the sheriff for failure to pay state and county taxes. The owner then has two years in which to redeem it. The property Mr. Alexander has advertised to sell is property which has been sold within the past seven or eight years by the sheriff, bid in by the state, and not redeemed by the owner within the specified two years. The property Mr. Alexander sells he will give a deed to, but a number of lawyers today declared that such deeds will not be worth the paper they are written on.

"If the law has been complied with," explained one lawyer, "then the deeds will be good. That is, if it can be shown that the taxes were due and not paid, the property advertised and sold according to law, and that the owner had no personal property from which the taxes could have been paid, then the deeds will be good. But there isn't one case in ten where this has been done, and probably not one deed in ten would consequently be valid."

It is understood today that former Master Commissioner Gip Husbands went over the list published by Mr. Alexander and has stated that fully \$5,000 of the taxes claimed to be due have been paid long ago, and that he, Mr. Husbands, has the receipts for them. The reason he knows is, that the law requires when property is sold by order of court by the commissioner, all taxes must be paid, and that Mr. Husbands himself paid the taxes and has the receipts. Mr. Husbands was seen today and verified the report except he didn't know the exact amount. It is likely that there will be some lively contests if some of the property advertised is sold.

THE DRUMMERS.

The Paducah drummers who went to Louisville to attend the state meeting of the T. P. A. have returned. There was not a large attendance outside the Louisville Post, and the interest once taken in the T. P. A. seems to have died out to considerable extent.

The banquet was held at the Louisville hotel Saturday night, and among others Hon. Jerro C. Porter, of the Purchase, responded to a toast.

WILL REFUSE

Treasurer Instructed to Decline Telephone Company's License

The City Will Investigate the Matter of Franchise, Also, It Is Said.

The finance committee of the general council, has instructed the city treasurer not to accept the \$100 license money from the East Tennessee Telephone company should it be presented. It seems some of the members are sore because the company took out an injunction against the city to prevent the collection of a license on poles, and will investigate the company's right to do business without a franchise. It will probably not be until after the license suit now pending is settled, however.

Nearly every administration for the past several years has investigated the same thing, and the present administration will probably find out what the others did, that the telephone company is doing business under a state grant and had a perpetual permit from the city years before such a thing as a franchise was known. The Paducah Gas company does the same thing. Neither has a franchise because each came into existence many years before the franchise law was passed, and the court of appeals has decided in a number of similar cases that such laws cannot be made retroactive.

The telephone officials claim that their suit to prevent the city from collecting the license is simply to settle the question of the city's right to assess a double license. If the license of \$100 a year is legal, the one requiring a tax on each pole, cannot also be, and if the latter is legal, the \$100 license is illegal. The company simply desires to know which it is liable for, believing that it cannot be required to pay a double license.

No action was taken Saturday by the K. of P. board of control in regard to the bids for the K. of P. widows and orphans' home. None of the bids was opened, and it was decided not to open them until August 20. It is supposed this was done at the request of Louisville Pythians, who, on account of the large fund they are raising for the big convalescent in August, have not been in a position to give the subscription for securing the home the desired attention.

Those present at the meeting Saturday were: W. O. Quinby, of Dayton, president of the board; T. P. Satterwhite, of Louisville, vice president; John O. Thomason, of Henderson, secretary; R. G. Fitch, of Winchester, treasurer; A. C. Green, of Lexington; B. P. Eubank, of Bowling Green; I. H. Davis, of Hopkinsville, and Ruby Laffoon, of Madisonville.

The competition among the cities of the state, promises to be lively, and eight cities are already after the home, Louisville, Lexington, Newport, Paducah, Bowling Green, Hopkinsville, Danville and Henderson have said that they will make offers, and others may enter. Men representing each city were present to speak for their city, but none was heard.

The board Saturday deposited the \$12,000 now in its charge in three Louisville banks, and will draw 3 per cent. interest on it until it is used for building the home.

A DAINTY STORY

MRS. MURRELL'S NEW BOOK BRIEFLY REVIEWED.

"The White Castle of Louisiana," recently issued by John P. Morton & Co., and written by Mrs. D. G. Murrell, of this city, presents a charming picture of the old South, immediately preceding and following the war. The sweet young girls and the gallant young men around whose lives the story is woven, are ideal types of a picturesque period and are suggestive of the companionship of the girlhood of the writer, who was born and bred in the romantic atmosphere she describes.

"The White Castle," which is evidently modeled from the home of her girlhood, is an attractive representation of one of the magnificent old Southern plantations, with its retinue of slaves. The negro characterization and dialect is particularly happy, and many quaint sketches "done in black," are given.

The book is prettily bound in violet silk, with meant edges. The writer uses the unique nom de plume M. R. Aileenroe, her Christian name and initials written backwards, Cornelia R. M.

A treasury warrant for \$40,000,000 for the Panama canal property was signed by Secretary Shaw and delivered by him in person today to J. P. Morgan & Co. This is the largest warrant ever issued by the government.

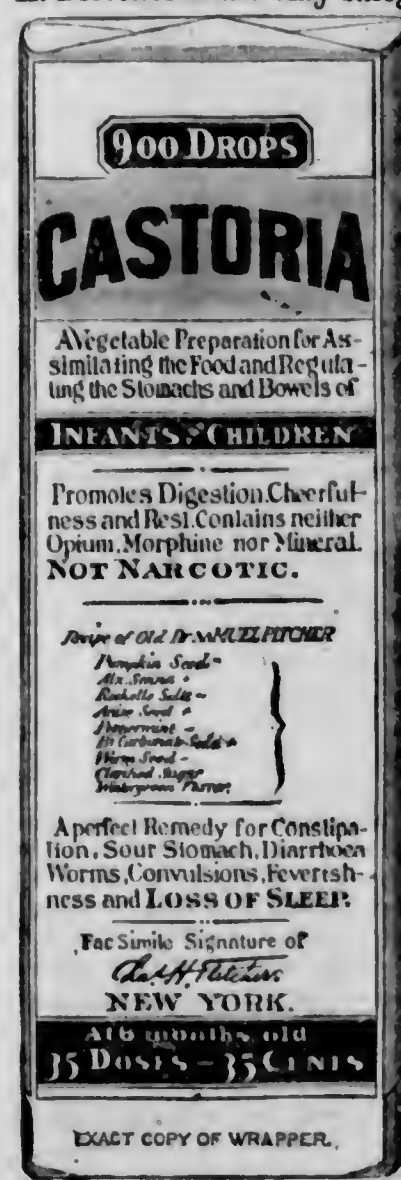

Indisputable Evidence.

You have read our oft-repeated statement, "In use for over 30 years." It was in the early sixties that Dr. Pitcher first made use of the prescription now universally known as Castoria. With a record of over fifty, under five years of age, out of every hundred deaths, it was the AMBITION OF EVERY PHYSICIAN to discover a remedy suitable for the ailments of infants and children that would decrease this distressing mortality. In Castoria that relief has been found.

Let us take the statistics covering the deaths in the City of New York for the past 30 years, and here we find the beneficent effects of a combination of drugs excluding opiates and narcotics so long sought for, namely: CASTORIA.

Of the total number of deaths in New York City in 1870, 50 per cent. were under five years of age; in 1880, 46 per cent.; in 1890, 40 per cent.; in 1900, 35 per cent. only. Just stop to think of it.

Until 1897 no counterfeits or imitations of Castoria appeared on drug store shelves, but since that date Mr. Fletcher has been called upon to suppress a number of these frauds. While the record for 1900 does not come down to our expectation it is owing to the carelessness of mothers when buying Castoria. The signature of Chas. H. Fletcher is the only safeguard, and he alone is authorized to use the doctor's name.

BEST TWO IN THREE WON BY PADUCAH

The Indians Arrived Today for a Series of Games.

Cairo Yesterday Defeated Them—
Large Crowd at Park Yesterday Afternoon.

BASEBALL NEWS OF DIAMOND

The Paducah K. I. T. league baseball team defeated the Poplar Bluff boys yesterday afternoon at Wallace park grounds by a score of 17 to 5, the game being won by superior play and the superb pitching of Freeman, for Paducah.

The game was witnessed by a vast number of spectators and started at three thirty, lasting nearly two hours. Paducah began in the first inning by making two runs and repeating the dose again in the second inning. In the third inning five scores were tallied and two scores were netted in the fifth and sixth innings successively. In the eighth inning four scores were made, making the total of 17 scores.

Poplar Bluff made nothing until the third inning when they made four scores through a two base hit and several errors. A strong wind was blowing and the balls were hard to judge. Poplar Bluff players seemed to suffer from this source more than the home boys. The other score made by the visitors was made in the fifth inning when they netted it through an error of shortstop Virgil.

The Paducah players seemed to have their slinging clothes on and baited Talbot all over the field. Freeman was not easily found by the visitors.

The summary of the game briefly outlined is as follows:

A. B. R. H. P. O. A. E.
Paducah— 40 17 15 57 6 5
Poplar Bluff— 35 5 3 21 10 9
Batteries—Freeman and Land, for Paducah; Talbot and Keene, for Poplar Bluff.

Freeman struck out nine men and gave passes to none while Talbot struck out six men and walked five.

The errors made were excusable on both sides on account of a strong wind blowing.

Paducah made only 7 earned runs and Poplar Bluff but 1. Paducah had eight men left on bases while Poplar Bluff had but four.

Yesterday the Cairo K. I. T. league team defeated the Cherokee Indian team by a score of 11 to 5. The game was well attended, mostly going down on the Fowler from Paducah to size up the Indians.

The Indian team arrived this morning and this afternoon is playing a game with the local league. Hattie and Land is the battery for Paducah. The Indians will play again tomorrow and also tomorrow night will give an exhibition of ball played under electric lights. The team carries its own electric light plant. Hattie will pitch tomorrow and Freeman will be saved for the opening game of the league season Wednesday afternoon with Clarksville.

The L. A. L. baseball team defeated the Centrals yesterday morning by a score of 11 to 3. Hassman and Hattie was the battery for the L. A. L. while Dicko pitched the first six innings for the Centrals and then quit. Sutherland then went in and was pounded all over the box. Dicko held the game down to a score of 2 to 1 when he quit, the other runs being made after he went out of the box. Smith caught for the Centrals. The L. A. L. team is still the champion amateur team of the city.

Wallace, the Cairo left fielder who jumped to Vicksburg, Miss., has been sold by Cairo to that city for \$150. The deal will be regularly closed when the Mississippi town sends the money. Wallace, it will be remembered, jumped from Cairo to an independent team in Louisville, and later to Vicksburg.

This morning President Sam Jackson ordered lumber on the ball grounds and the work of building the grand stand will begin immediately. During the team trip away which will follow the three games with Clarksville the carpenters will finish

Yesterday the I. O. Boys were defeated by the Famous team by a score of 17 to 8. The batteries were Halsey, Moss and Ramago for the I. O. boys and Voight and Farrar for the Famous.

The Sun will be glad to make mention of all local amateur games if the managers of the teams will send in the results briefly written before noon of the day of publication.

Saturday's game between Paducah and Poplar Bluff was won by the Missouri boys by a score of 2 to 1, and was a close, snappy game.

STATE LAUNDRYMEN

Convention at Louisville—Cities in This Section Organize.

The First Set of Officers Chosen for New Association.

Mr. E. C. Clark, of Paducah, has gone to Louisville, to attend the state laundry association's meeting. There are no members in this part of the state, but probably soon will be.

A few days ago owners of steam laundries at Russellville, Hopkinsville, Bowling Green, Clarksville, Franklin, Guthrie and Madisonville met at Guthrie and perfected an organization. The purpose of the meeting was to take steps in the interest of the laundrymen and to formulate plans for guarding against certain irregularities that exist in the business. The organization will doubtless at some future time join the Southern association of laundrymen. The following officers were elected: W. H. Pickett, of Madisonville, president; B. E. Dorris, of Franklin, vice president; Clarence Major, of Hopkinsville, treasurer.

ANOTHER KNOCK OUT

AUDITORS' AGENT LUCAS LOSES BANK TAX SUITS IN CIRCUIT COURT.

Auditor's Agent Frank Lucas, of Paducah, has now also lost in the circuit court in his suits against state banks to collect taxes on deposits for five years back. The Bank of Commerce suit at Louisville, was selected as a test case, and was decided by Judge Gregory in county court, against the Auditor's agent. Mr. Lucas took an appeal, and by agreement Judge Muir was selected to try it in circuit court, where it went from county court. Judge Muir, at Louisville, has rendered a decision sustaining Judge Gregory on every point. Mr. Lucas, it will be remembered, claimed that the banks should pay taxes on all the money deposited with them, because these to whom the money belonged sometimes did not list it for taxation.

Judge Gregory dismissed the suits, although holding that the auditor's agent had a right to bring them without the authority of the auditor. Judge Muir sustained him, and the agent will appeal to the Appellate court, where the question will be finally settled, and it is the intention to get it settled as soon as possible.

The aggregate suits in the state are for about \$1,000,000 back taxes.

While no estimates are obtainable by the local officials, it is known that the mails are much heavier than when the last weighing occurred, and the railroads will receive greatly increased rates.

The central fire department was called to the saloon of Fred Reimer at Seventh and Trindle streets yesterday afternoon about 5:30 o'clock to extinguish a small blaze in the roof caused by the explosion of a gasoline stove. NECESSARY

PEOPLE MAY GO WITHOUT FOOD FOR DAYS BUT NOT WITHOUT SLEEP.

Fasters have gone without food for many days at a time but no one can go without sleep. "For a long time I have not been sleeping well, often lying awake for two or three hours during the night up to three weeks ago, but now I sleep sound every night and wake up refreshed and vigorous," says a California woman.

"Do you know why? It's because I used to drink coffee but three weeks ago I cut off the coffee and began using Postum. Twice since then I have drunk coffee and both times I passed a sleepless night, and so I am doubly convinced coffee caused the trouble and Postum removed it. "My brother has been in the habit of drinking coffee three times a day. He has been troubled with sour stomach and I often would notice him getting sick from the can to relieve the distress in his stomach; lately hardly a day passed without a dose of soda for relief.

"About two weeks ago he asked me for a cup of Postum—said he liked it well enough to give up coffee and since then, has been drinking Postum three times a day and says he has not since been troubled with sour stomach." Name given by Postum Co., Battle Creek, Mich.

Even after this lady's experience with coffee her brother did not suspect coffee was causing his sour stomach, but easily proved it. Coffee is not suspected in thousands of cases just like this but it's easily proved. A 10 days trial works wonders, and of course "there's a reason." Look in each pkg. for the famous little book, "The Road to Wellville."

Joe L. Kerr and James Leslie, two wealthy oil men of Bradford, Pa., sat in the lobby of a hotel in Lima, O., the other evening when a Salvation Army girl came in and passed her tambourine. James Caldwell FIRE INSURANCE

Fraternity Building

Representing the Strongest Line of Fire Insurance Companies.

Written at Random.

People who do house cleaning should be careful not to leave any of the numerous bottles of poison around where the children can find them. Youngsters are always inquisitive as well as hungry, and they are usually willing to sample anything. Near Owensboro the other day three children found some "rat biscuits" that had been thrown into the yard when the pantry was cleaned, and came near dying. Two were found in the yard in convulsions and it was only by the skin of their teeth that they were saved. In addition, during the excitement the coalhouse caught fire and came near destroying the entire home—all on account of the careless handling of poison during house-cleaning.

"People devise strange and ingenious schemes of getting in a show free," asserted Mr. Van, of the Tucker Stock company yesterday. "Out in Utah, I remember, one theater had unusually thick pass checks, those little pasteboards, you know, given to people who go out before a performance or between the acts. We discovered pretty quick that something was doing, because we found several of the checks divided. Somebody had soaked them in water, pulled them apart, leaving one side of each ticket the right color. They would thus take one check, separate it, and make two. When handed in at the door the right side was turned towards the door keeper, and he didn't think to turn it over. This is the first time I ever saw the scheme worked, and it didn't work long then, because a set of thin paste checks was immediately substituted."

Green Gray, Paducah's veteran colored barber, of Broadway, near Fourth street, is full of reminiscences, and one of his most interesting is a remembrance of the funeral of the late Abraham Lincoln, in Springfield, Ill., in 1865. Green came to Paducah first from Springfield, his native place, 50 years ago. At the time of Lincoln's assassination he returned to Springfield to witness the funeral.

"I never will forget how the hearse looked, drawn by six black horses. The procession was very large and following the carriages were citizens on foot, and I was among them. The cemetery was some distance out from the heart of the city and all along the way many people had gathered to watch the procession pass by, and a number had tears streaming down their faces, showing how the dead president was loved in his home town."

A Princeton paper begins the account of a wedding as follows:—"The marriage of Mr. T. S. Haynie and Miss Sarah Malone Sunday afternoon was the terminus of an unknown correspondence."

Doubtless there are few who can say their wedding was the "terminus of an unknown correspondence," but this couple, the paper goes on to say, had in addition a very ludicrous and embarrassing experience. They had been engaged in that attractive but often perilous practice of courting by mail, without ever having seen one another. The man sent the young lady a picture of another man as his own, and she, by a peculiar coincidence, sent him one of a lady friend. He lived in Mississippi, and when they arranged to meet in Princeton, each took along the picture. The man got off the train with the photograph in his hand and went about closely scrutinizing every one's face to find some one it resembled. She, in turn, was running about in a high state of excitement with the picture of her supposed fiance in her hand, trying to locate him. Finally the two pictures revealed to each the other's identity, and the young lady was very much surprised and indignant to find that the supposed young man was in reality a grey-headed individual of sixty or more.

She at first declined to marry him, but he finally persuaded her and they were happily wed.

The gentle looking man who has lost an arm and leg and whistles on the streets is A. H. Bryant, of Atlanta, Ga. He is a fine whistler, a good singer and clever ventriloquist. His renditions are varied, many classic, including selections from operas and the finest overtures, and the correctness of his notes indicates a fine musical ear. Mr. Bryant has whistled his way almost around the world, and he never fails to draw a crowd. He asks nothing, but is grateful for whatever he receives, which is

It's Easier To Cure, Than Endure Pain.

It is needless to suffer pain. It is easier to take a Pain Pill and be cured. If you will provide yourself with a package of Dr. Miles' Anti-Pain Pills you have the means of preventing attacks of pain, as well as a positive cure. If you are subject to nervous or sick headaches, neuralgia, backache, menstrual pains, stomach ache, indigestion, nervousness, or if you have dizzy spells, sick stomach or headache while traveling—car sickness—all that is necessary is to take one of Dr. Miles' Anti-Pain Pills when first symptoms appear, or just before starting out to visit or travel, and they will soothe the irritated nerves, and free you from all these disagreeable affections.

In doing this you take no risks, because they are perfectly harmless, and you will have no other evidence of having taken them than the knowledge that you are free from pain.

"They relieve and cure by reinvigorating and relaxing the irritation of the nerves, and by stimulating the secretions."

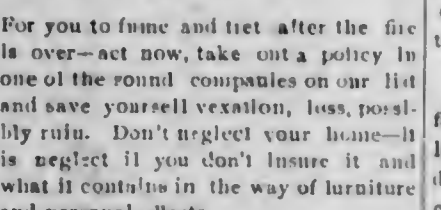

"I am glad to find the relief that comes with the knowledge that I am free from those terrible headaches that I have had all my life. All I have to do when I feel the approach of pain is to take one or two of Dr. Miles' Anti-Pain Pills, and I am free from my sufferings of three, six or twelve hours duration."

something unusual, both as to the asking and to the gratitude. He expects to be here some time and to go to St. Louis from here and remain until the fair closes. One thing about his whistling is remarkable as the whistling itself is his endurance. He whistles for hours at a time without any apparent fatigue. More than that he is cheerful and gentlemanly, and those who have to give are always glad to give to his kind, first because he does something to earn it, and second because he never asks for it and appreciates it when it is given.

"When I think of the many underserving grafters who go about the country looking for charity," a local city official remarked Saturday as he stood on a street corner and watched Bryant merrily whistle nickels and dimes into his pockets, "it makes me skeptical. Now here is a man who has but one good arm and one good leg; he is in a much worse fix than hundreds of tramps who go about the country soliciting alms under the pretense that they cannot work. This man has gone ahead and developed his whistling powers and is making a good living. Such people are deserving and I am always glad to do what I can for them."

Bryant's neat appearance and quiet manners often lose him money, for many people dislike to offer him anything for fear it will offend him. He stood in front of a big mercantile establishment for more than an hour Saturday afternoon and for some time it was supposed he was advertising the house and not whistling for what he could earn.

Theatrical Notes.

Miss Blanche Buckner, who made such a tremendous success in "The Isle of Spice," has been employed, it is understood, to take a prominent engagement in New York the coming season Saturday's Louisville Times says:

The friends of Miss Blanche Buckner will be gratified to read the following letter from Mr. Whitney, the manager of "The Isle of Spice" company, of which Miss Buckner is a member, to Mr. J. T. Macaulay, of this city:

"I wish to thank you for the trouble you went to for Miss Buckner, as well as for myself as it was quite a relief to her mind to know that her mother was not seriously ill. She is developing remarkably fast, and a great future seems almost certain for her. She is perfectly happy in her position, and everybody is charmed and delighted with her. She was put in the prima donna role in St. Louis with only four rehearsals and I will say now that she played the part last week as well as any prima donna, and much better than some who have ever been in the part. So you see it is only a question of time when her family will be proud of her position, instead of regretting it, as they seem to now."

"The Isle of Spice" company will open an engagement of several weeks at the Globe theater, in Boston, Monday.

Mr. Abe Anspacher has received word that his nephew, Mr. Louis Kaufman Anspacher, of New York, member of the faculty of Columbia University, has completed and arranged to publish "Tristan and Isolde," a five act tragedy founded on the same legends as Wagner's opera of the same name.

The Bostonians, recently heard in Paducah in "Robin Hood," will disband this season. The name has been in miller for many years, although the company itself contains only two of the original members.

The latter part of this week or the first of next a manager for the Wallace Park theater is expected in Paducah. Mr. Kneller, who owns a chain of theaters, has the lease this year.

Kate Chaston, after twenty-five years' success on the stage, closes her professional career in Louisville this week in "The Two Orphans."

AS OLD AS THE PYRAMIDS

That blood poison existed among the ancients has been proven beyond question. It has been traced back thousands of years, and is as old as the Pyramids. This blighting curse has been handed down from nation to nation and from individual to individual till it has spread to all parts of the world.

Contagious blood poison, as it is called in modern times, begins with a small sore or ulcer through which the virus enters the blood. This is followed by inflammation and swelling of the glands of the groins, a red eruption breaks out on the body, sores appear in the mouth and the throat becomes ulcerated, and as the disease takes a deeper hold and the blood becomes more thoroughly infected, the hair and eyebrows drop out, the skin is spotted with copper-colored blotches, the bones and muscles ache, and it seems to the victim of this monster scourge there is not a sound spot in the whole body.

The horror of this awful disease can never be told. The one who contracts it suffers in body and mind, and if the poison is not eradicated transmits the taint to his children, and Contagious Blood Poison thus becomes responsible for many of the ills of childhood—Skin Eruptions, Catarrhal Troubles, Sore Eyes, Scalp Disease, White Swelling, Scrofula and others just as bad. S. S. S., the great vegetable blood purifier and tonic, has long been recognized as a radical and safe cure for Contagious Blood Poison. It counteracts the deadly virus and cleanses and purifies the diseased blood, and under its tonic effects the general health improves and soon all signs of blood poison are gone. The strong mineral remedies, Mercury and Potash, which are so often prescribed for the disease, dry up the sores, skin eruptions and all external signs, but leave the stomach and digestion ruined and the system in such condition that the disease usually returns in worse form than ever. S. S. S. is guaranteed a purely vegetable remedy. It is so innocuous for passed that it contains a single mineral ingredient. If you have blood poison write for our special book, describing the different stages and giving all the symptoms. With directions for treating one's self at home. SUFFERED ALL HER LIFE.

Miss Emma McIlwain Could Find No Relief Until She Took Shoffner's Sure Cure.

Covington, Tenn., March 27, 1901.
Mr. M. L. Shoffner,
Shoffner-Hayes Drug Co.
To give you a full description how I suffered from indigestion would make a book when written out. Will tell you as near as I can in a few words as possible. I have suffered with indigestion for years, in fact, nearly all my life. I did not know it, until four years past, and my physician told me. He put me on malted milk and a tonic which did me no good, and I lived on the milk nine months without missing a meal. I was almost starved and commenced to get very thin. Then thought it would finally kill me. Up to November 1900, I suffered fearfully, and sometimes I thought every breath would be the last one. I was so weak that I could walk but a few steps without resting, and vomited day and night. I was so badly swollen it was painful to move. My limbs and back hurt me so I couldn't rest day or night. I am sure nobody ever suffered more than I did with indigestion. I had heard of your medicine, Shoffner's Sure Cure, but of course had no faith in it. I like all others, but in November I decided to try it. I commenced to try it on Friday at dinner and by Saturday dinner had taken six doses, and went down to dinner and ate just what I wanted of everything on the table, and it didn't hurt me at all. I have taken four bottles and am stronger and feel better than I have in years. I tell everybody to take your medicine and advertise it all over. You can see what you please of this letter, and I sincerely hope it will help you sell your medicine. I can truthfully say it is fine for indigestion. I hope God may spare you to live and make this medicine always. With best wishes all along through life for you.

ALDERMEN DAVIS . INSPECTS STREETS

Vastly Pleased With Nashville's Fire Throughfares.

Paducah Board of Public Works May Investigate the Bitulithic Material.

NASHVILLE INVITES A VISIT

Alderman G. R. Davis, and Director-General L. A. Lagomarsino, of the carnival, returned yesterday from Nashville, where in addition to conferring with the general manager of the C. and St. L. railroad and using their influence in having the company transport the carnival company from Paducah to Chattanooga, they inspected the streets in Nashville. They were well pleased with the result of their efforts in both cases.

They were taken by city officials all over Nashville in an automobile and were shown principally the bitulithic streets. Alderman Davis thinks that this is the coming material for streets. "The foundation is of crushed limestone and other compositions rolled, no concrete being used, and the paving proper is of crushed limestone and some other material. It is as smooth and noiseless as asphalt, and so hard that when the street car company wanted to widen its tracks and attempted to cut a small groove to slide the tracks over it, it could not be done with a pick, but necessitated the use of a sledge hammer and chisel such as are used in cutting steel.

"We saw streets that were constructed of this material three years ago, and on which the heaviest hauling in Nashville is done that leading to the railroad freight houses, and there was no perceptible wear anywhere.

"In fact, it is the best material I ever saw, and costs only from \$1.35 to \$1.50, here we are now paying over \$2 for brick streets in Paducah."

Alderman Davis brought home with him an invitation to the Paducah board of public works, aldermen and councilmen to come to Nashville at any time and inspect the streets and all expenses will be paid by the company that makes the material. Nashville has her own mixing plant at present, and this saves a great deal of cost.

The invitation will probably be formally extended to the local officials at the next meeting of the board. In addition the Nashville men will at once begin corresponding with the local board of public works and invite an investigation of the material.

Another good feature of the bitulithic street is that a block a week can be constructed if the weather is good. Seven blocks were recently built in Nashville between January and March, although there was much bad weather.

GOOD SPIRITS.

Good spirits don't all come from Kentucky. Their main source is the liver—and all the fine spirits ever made in the Illinois Grass state could not remedy a bad liver or the hundred and one ill effects it produces. You can't have good spirits and a bad liver at the same time. Your liver must be in fine condition if you would feel buoyant, happy and hopeful, bright of eye, light of step, vigorous and successful in your pursuits. You can put your liver in fine condition by using Green's August Flower—the great cat of all medicines for the liver and stomach and a certain cure for dyspepsia or indigestion. It has been a favorite household remedy for over 35 years. August Flower will make your liver healthy and active and thus insure you a liberal supply of "good spirits." Trial size, 25c; regular bottles, 75c. For sale by DuBois, Kolb & Co.

HERBINE.

Will overcome indigestion and dyspepsia; regulate the bowels and cure liver and kidney complaints. It is the best blood enricher and invigorator in the world. It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise.

R. N. Andrews, Editor and Mgr. Ocoee and Rockledge News, Ocoee, Fla., writes: "I have used your herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. I recommend it unhesitatingly." 50c. Sold by DuBois, Kolb & Co., Paducah, Ky.

And now I began to be sorry for the girl. It is hard to have one's weaknesses exposed, especially if one is more foolish than wicked. But there was no way of letting this girl off with-

out sacrificing certain necessary points, and the coroner went reluctantly to work.

"How long have you been in this house?"

"Three weeks—ever since Mrs. Jeffrey's wedding day, sir."

"Were you there when she first came as a bride from the Moore house?"

"I was, sir."

"And saw her then for the first time?"

"Yes, sir."

"How did she look and act that first day?"

"I thought her the gayest bride I had ever seen, then I thought her the saddest, and then I did not know what to think. She was so merry one minute and so frightened the next, so full of talk when she came running up the steps and so struck with silence the minute she got into the parlor; that I set her down as a queer one till some one whispered in my ear that she was suffering from a dreadful shock—that ill luck had attended her marriage and much more about what had happened from time to time at the Moore house."

"And you believed what was told you?"

"Believed?"

"Believed it well enough to keep a watch on your young mistress to see if she were happy or not?"

"Oh, sir!"

"It was but natural," the coroner suavely observed. "Every one felt interested in this marriage. You watched her, of course. Now, what was the result? Did you consider her well and happy?"

The girl's voice sank, and she cast a glance at her master which he did not lift his head to meet.

"I did not think her happy. She laughed and sang and was always in and out of the rooms like a butterfly, but she did not wear a happy look except now and then when she was seated with Mr. Jeffrey alone. Then I have seen her flush in a way to make the heart ache. It was such a contrast, sir, to other times when she was by herself or."

"Or what?"

"Or just with her sister, sir."

The defiance with which this was said added point to what otherwise might have been an unimportant admission.

"You refer to Miss Tuttle?" observed the coroner.

"Mrs. Jeffrey's sister? Yes, sir."

The mention was gone from the voice now, but no one could forget that it had been there.

"Miss Tuttle lived in the house with her sister, did she not?"

"Yes, sir, till that sister died and was buried; then she went away."

The coroner did not pursue this topic, preferring to return to the former one.

"So you say that Mrs. Jeffrey showed uneasiness ever since her wedding day. Can you give me any instance of this—mention, I mean, any conversation overheard by you which would show us just what you mean?"

"I don't like to repeat things I hear, but if you say that I must I can remember some passing Mr. and Mrs. Jeffrey in the hall just as he was saying: 'You take it too much to heart! I expected a happy honeymoon. Somehow we have failed.'—That was all I heard, sir. But what made me remember his words was that she was dressed for some afternoon reception and looked so charming and so—and so, as if she ought to be happier."

"Just so. Now, when was this? How long before her death?"

"Oh, a week or so. It was very soon after the wedding day."

"And did matters seem to improve after that? Did she appear any better satisfied or more composed?"

"I think she endeavored to, but there was something on her mind, something which she tried to laugh off, something that annoyed Mr. Jeffrey and worried Miss Tuttle, something which caused a cloud in the house for all the dances and dinners and goings and comings. I am sorry to speak of it, but it was so."

"Something that showed an unsettled mind?"

"Almost. The glitter in her eye was not natural; neither was the way she looked at her sister and sometimes at her husband."

"Did she talk much about the catastrophe which attended her wedding? Did her mind seem to run on that?"

"Incessantly at first; but afterward not so much. I think Mr. Jeffrey frowned on that subject."

"Did he ever frown on her?"

"No, sir—not—not when they were

alone or with no one by but me. He seemed to love her then very much."

"What do you mean by that, Loretta; that he lost patience with her when other people were present—Miss Tuttle, for instance?"

"Yes, sir. He used to change very much when—when—Miss Tuttle came into the room."

"Change toward his wife?"

"Yes, sir."

"How?"

"He grew more distant, much more distant; got up quite frequently from his seat, if he were sitting beside her, and took up some book or paper."

"And Miss Tuttle?"

"She never seemed to notice, but—"

"But?"

"She did not come in very often after this had happened once or twice—I mean into the room upstairs where they used to sit."

"Loretta, I regret to put this question, but after your replies I owe it to the jury, if not to the parties themselves, to make Miss Tuttle's position in this household thoroughly understood. Do you think she was a welcome visitor in this house?"

"I can only repeat what I once heard said about this by Mr. Jeffrey himself. Miss Tuttle had just left the dining room and Mrs. Jeffrey was standing in one of her black moods, with her hand on the top of her chair, ready to go, but forgetting to do so. I was there, but neither of them noticed me; he was staring at her, and she was looking down. Neither seemed at ease. And don't he spoke and asked, 'Why must Cora remain with us? She started and her look grew strange and frightened. Because I want her to,' she cried. 'I cannot live without Cora.'"

"These words, so different from what we were expecting, caused a sensation in the room and consequently a stir. As the noise of shifting feet and moving heads began to be heard in all directions, Miss Tuttle's head dropped a little, but Francis Jeffrey did not betray any sign of feeling or even of attention. The coroner, embarrassed, perhaps, by this exhibition of silent misery so near him, hesitated a little before he put his next question. Loretta, on the contrary, had gathered courage with every word she spoke and now looked ready for anything."

"It was Mrs. Jeffrey, then, who plied most determinedly to her sister?" the coroner finally suggested.

"I have told you what she said."

"Yet these sisters spent but little time together?"

"Very little; as little as two persons could who lived together in one house."

This statement, which seemed such a contradiction to her former one, increased the interest, and much disappointment was covertly shown when the coroner veered off from this topic and brusquely inquired:

"Did you ever know Mr. and Mrs. Jeffrey to have any open rupture?"

The answer was a decided one.

"Yes. On Tuesday morning preceding her death they had a long and angry talk in their own room, after which Mrs. Jeffrey made no further effort to conceal her wretchedness. In deed, one may say she began to die from that hour."

Mrs. Jeffrey's death had occurred on Wednesday evening.

"Let us hear what you have to say about this quarrel and what happened after it."

The girl, with a renewed flush, cast a deprecating look at the mass of faces before her, and meeting on all sides but one look of intense and growing interest, drew up her next figure with a relieved air and began a story which I will proceed to transcribe for you in the fewest possible words.

When Charles Lamb Said Grace. Recently, when Edmund Clarence Steadman was visiting in New England, he was called upon by the head of the house while at dinner to invoke the divine blessing.

"I was rather surprised, and for half a minute sorely tempted," said Mr. Steadman in relating the incident. "Then I rose to the occasion and asked a grace which I remembered." "But, Mr. Steadman," demanded a young woman of the party eagerly, "to what were you sorely tempted?" "To do as Charles Lamb did under similar circumstances." "And that was?" "He looked about the board and asked in his surprise: 'Is there no clergyman present?' The host shook his head. Then Lamb prayed: 'For this and all other mercies, O Lord, make us truly thankful.'—New York Times.

A Personal Matter.

"I think I am giving general satisfaction," said the young clergyman a little doubtfully, "although Elder Wilkins has found a good deal of fault with my prayers." "You are sure to have that trouble," responded the retired pastor with a reminiscent sigh. "The elder is a good man, a most worthy man. But he never can remember that he is not the party addressed in prayer."

Cause for Mirth.

"Mary," said a Pine street lady to her cook the other morning, "I must insist that you keep better hours and that you have less company in the kitchen at night. Last night you kept me from sleeping because of the uproarious laughter of one of your woman friends." "Yes, mum, I know, but she couldn't help it. I was tellin' my lady friend how you tried to make cake one day."—Philadelphia Ledger.

THE D— FOOL VOTE.

How Champ Clark Won Precinct by Darling Rejoinder.

Congressman Champ Clark usually manages to take pretty good care of himself, whatever the circumstances. During one of his campaigns in Missouri he struck an exceptionally hostile neighborhood. He had been subjected to several interruptions, and finally a burly fellow strode down to the front of the platform and said: "Say, you're a d— fool, and every body here knows it!"

Clark's face actually became radiant at this announcement. He leaned over, and before the bewildered spectator who had hurled the epithet could think, seized his hand and wrung it warmly. Then, facing his audience squarely, said:

"The remark of my friend here has given me renewed encouragement. If before I had any shadow of doubt as to my success, he has dispelled it, for if I poll the full d— fool vote of this precinct, I will be elected by a rousing majority."

Clark afterward said he knew he was taking long chances. But the audience went wild over the rejoinder, and the Congressman really did carry the precinct when election day rolled around.—Baltimore Herald.

The Meaning of "Carat."

The value of a diamond is calculated on its weight, which is estimated by what are called "carats," originally an Indian weight. Four grains go to the "carat," the value of which varies slightly in different countries, and formerly the rule was that the value of the stone increased with the square of the weight in carats. This, however, is rather out-of-date, and the value is now governed by the beauties of the particular stone, so that it is practically impossible, especially with "specimen stones," to give any fixed rule.
